

ENERGY LAW
Nº I-828
adopted 28 March 1995

Article 17

Energy Licences and Permits

Engagement in import, export, wholesale and retail trade of petroleum products in bulk observing the list set by the Republic of Lithuania Government is solely allowed to enterprises with licences granted following the procedure established by the Republic of Lithuania Government. Licences on engagement in import, export, wholesale and retail sale activities shall be issued without time restrictions and re-registered every year in the institution issuing the licence.

Licences on import, export and wholesale trade in oil products in bulk are issued by the Ministry of Economy. The retail trade in oil products in bulk is allowed only when possessing licences issued by a corresponding municipality.

Sole enterprises possessing permits under the procedure established by the Ministry of Economy may engage in exploitation of energy equipment (electricity, heating, combustible natural gas and liquid hydrocarbon gas). The permits shall be issued by the State Energy Inspectorate under the Ministry of Economy.
