- (3) The Minister shall not grant an application for a concession if the proposed activity is contrary to the provisions of this Act or the purposes for which the land concerned is held.
- (4) The Minister shall not grant any application for a concession to build a structure or facility, or to extend or add to an existing structure or facility, where he or she is satisfied that the activity—
- (a) could reasonably be undertaken in another location that—
 - (i) is outside the conservation area to which the application relates; or
 - (ii) is in another conservation area or in another part of the conservation area to which the application relates, where the potential adverse effects would be significantly less; or
 - (b) could reasonably use an existing structure or facility or the existing structure or facility without the addition.
- (5) The Minister may grant a lease or a licence (other than a *profit à prendre*) granting an interest in land only if—
- (a) the lease or licence relates to 1 or more fixed structures and facilities (which structures and facilities do not include any track or road except where the track or road is an integral part of a larger facility); and
 - (b) in any case where the application includes an area or areas around the structure or facility,—

- (i) either—
 - (A) it is necessary for the purposes of safety or security of the site, structure, or facility to include any area or areas (including any security fence) around the structure or facility; or

- (6) No lease may be granted unless the applicant satisfies the Minister that exclusive possession is necessary for—
- (a) the protection of public safety; or

17V Limitations on concessions and leases over marginal strips

- (1) Without limiting the power of the Minister to grant a concession over a conservation area that is a marginal strip, the Minister may decline to grant a concession in any case if he or she is satisfied that it is more appropriate in that case to enter into any agreement or arrangement under section 24H.
- (2) No concession may authorise the owner of any land adjoining a marginal strip to use the marginal strip for farming purposes or forestry purposes or any purpose associated with or incidental to any farming or forestry carried out on the adjoining land; but nothing in the preceding provisions of this subsection limits or affects section 24H.

- (3) The Minister shall not grant a lease (other than a lease that formalises an occupation of the land, where that occupation existed before 10 April 1990) over a marginal strip unless he or she is satisfied that—
- (a) the grant is permitted by this Part; and
 - (b) the activities authorised by the lease require the use of both the marginal strip and the adjacent water; and
 - (c) the land, structures, and facilities to which the lease relates are essential to the carrying out of such activities.

17W Relationship between concessions and conservation management strategies and plans

- (2) Where—
- (a) there is no conservation management strategy or conservation management plan for a conservation area; or
 - (b) the relevant conservation management strategy or conservation management plan does not make any provision for the activity to which the application relates in a conservation area,—
- the Minister, after complying with the provisions of sections 17S, 17T, and 17U, may grant a concession.
- (3) The Minister may decline any application, whether or not it is in accordance with any relevant conservation management strategy or conservation management plan, if he or she considers that the effects of the activity are such that a review of the strategy or plan, or the preparation of a strategy or plan, is more appropriate.
- (4) On declining an application under subsection (3), the Minister, if requested by the applicant to do so and after consultation with the relevant Conservation Board, may initiate a review of the strategy or plan pursuant to section 17H or the preparation of a strategy or plan under this Act.
- (5) The Minister may require the applicant to pay all or part of the reasonable costs of such a review or the preparation of a strategy or plan.
- (6) Subsection (4) does not affect the power of the Director-General to initiate a review or an amendment to a strategy or plan under section 17H or section 17I.
- (7) It shall be a condition of every concession document that the concessionaire must act in accordance with every relevant conservation management strategy and conservation management plan for the time being in force, including any

amendments to the strategy or plan, whether the strategy or plan or amendment was approved before or on or after the date on which the concession became effective; and that condition shall be deemed to be included in every concession document.

- (8) Any provision of a concession document that contravenes or allows expressly or by implication any action or default on the part of the concessionaire in contravention of the strategy or plan shall have no effect and any breach or contravention of the strategy or plan shall be deemed to be a breach or contravention of the concession and concession document.
