REVENUE DIVISION

(Central Board of Revenue)

NOTIFICATION

Islamabad, the 14th November, 1994

CUSTOMS

- S.R.O. 1108 (I)/94.—In exercise of the powers conferred by section 219 of the Customs Act, 1969 (IV of 1969), read with sections 25B, 30, 32, 79 and paragraphs 3, 8 and 23 of the Third Schedule thereof, the Central Board of Revenue, on order to regulate the valuation of imported goods, inspection and verification of their physical nature as to type, quality specification (wherever applicable), quantity and classification thereof under the First Schedule to the Customs Act, 1969 (based on Harmonized Commodity Description and Coding System), calculation of customs-duties and taxes leviable thereon and application of notifications and import regulations: is pleased to make the following rules, namely:—
- 1. Short title, extent and commencement.—(1) These rules shall be called the Inspection, Valuation and Assessment of Imported Goods, Rules, 1994.
- (2) These rules shall apply to imported goods specified in Schedule I to the Customs Act, 1969, except those specified in Annex I to these rules.
- (3) These rules shall come into force at once, in respect of the goods imported against an Import licence, import permit or Appendix-B or any other import authorization, letter of credit, contract, tender, order, proforma invoice of confirmation advice or under any other document or arrangement obtained or opened on or after that date.
- 2. Definitions.—In these Rules, unless there is anything repugnant in the subject or context,—
 - (a) "Appendix B" means Appendix B to the Import Export Procedure notified vide Notification No. S.R.O. 737 (1)/94, dated the 26th July. 1994;

- (b) "authorized dealer" means any bank which is authorized to open letters of credit and issue documentary instructions of payment in foreign exchange or local currency for the payment of imported goods and to issue Appendix-B or import authorization;
- (c) "Act" means the Customs Act, 1969 (IV of 1969);
- (d) "CISS" means the Comprehensive Import Supervision Scheme for pre-shipment inspection of imports in the country of export, including quality specification (wherever applicable), quantity, origin and reasonable or useable life of old or used machinery and shelf life of food items, valuation and classification under the First Schedule to the Customs Act. 1969 (IV of 1969) and calculation of leviable duties, taxes and other imports;
- (e) "Societe Generale De Surveillance" or "SGS" and "Cotecna Inspection SA" or "Cotecna" (hereinafter referred as PSI Company or Companies) in relation to CISS, means a limited liability company or companies organized and existing under the laws of Switzerland, engaged for rendering inspection services for imported goods, in the country of export prior to shipment;
- (f) "CRF" means a Clean Report of Findings issued by the PSI Companies;
- (g) "attested invoice" means one copy of the seller's final invoice to which an adhesive security label issued by the PSI Company has been affixed confirming that the goods described on the invoice have been inspected by the PSI Company and which shall give details of the relevant import reference number and the date of attestation;
- (h) "Discrepancy Report" means the report issued by the PSI Company which identifies un-corrected discrepancies found by the PSI Company during the physical inspection of the goods in the country of supply or export:
- (i) "goods" means goods specified in the First Schedule to the Customs Act, 1969 (IV of 1969);
- (j) "Inspection Order" means a declaration, in duplicate, in format specified in Annex II to these rules, alongwith copies of the import licence, import permit or Appendix-B or other import authorization, order, tender, contract, sales note, letter of credit, confirmation advice and indent or proforma invoice as applicable, to be submitted by the importer to the liaison office of the relevant PSI Company in Pakistan for undertaking services specified under these rules:

- (1) "services" means inspection by the PSI Company to verify the physical nature of the goods, their quality specifications (wherever applicable), quantity and reasonable usable life of second hand machinery and shelf-life of food items, dutiable value, classification under the First Schedule to the Act and calculation of leviable duties and taxes as per applicable notifications and import regulations.
- 3. Goods subject to inspection.—The goods specified in the First Schedule to the Act, except the following goods, shall be subject to comprehensive preshipment inspection, namely:—
 - (a) goods specified in Annex I to these rules; and
 - (b) goods valuing US \$ 3,000 (C&F) or less:

Provided such goods are not full container load:

Provided that the Central Board of Revenue or the Collector of Customs may direct the PSI Company under intimation to the importer to inspect any particular consignment or goods or class of such goods without assigning any reason:

Provided further that the partial shipments covering goods having total C&F value below or equivalent to US \$ 3000 shall be inspected if the total C&F value in import licence, import permit, Appendix B, order or letter of credit for such shipments is more than US \$ 3000.

- 4: Importer's responsibilities.—Every importer of goods subject to pre-shipment inspection shall perform following functions before import and clearance of goods from the customs control, namely:—
 - (1) The importer shall enter into an agreement or sales confirmation with the supplier and open or establish the letter of credit subject to the following conditions:—
 - (a) The seller shall give to the PSI Company in the country of export, at least three working day's notice prior to the proposed date of inspection of the goods and shall provide copies of the proforma invoice, indent, purchase order, price list, packing list and any other documents relevant to the transaction which the PSI Company may require for carrying out its services.
 - (b) The seller shall make arrangements at his own cost, for handling, presentation, sampling, shop testing of goods for the purpose of inspection and scaling of the container and shall allow drawing of samples, as deemed necessary by the PSI

Company, for reference purposes and to carry out analytical and laboratory tests and shall ensure that the PSI Company is able to witness the stuffing of goods in the container and apply sent to each full container load.

- (c) The seller shall pay to the PSI Company the cost of service in case he is not able to provide the above stated facilities to the PSI Company on the indicated date of inspection or stuffing of goods and the PSI Company has to carry out the services on any ther day mutually agreed.
- (d) The seller shall promptly remove the discrepancies pointed out by the PSI Company. In case of seller's failure to do so within a reasonable time, the PSI Company may issue a Discrepancy Report.
- (e) The selfer shall, upon satisfactory inspection and price comparison, submit a final invoice to PSI Company which shall include the following details, namely:—
 - (i) Description of the goods with their origin and classification under the Harmonized Commodity Description and Coding system:
 - (ii) weight and volume;
 - (iii) mode of shipment:
 - (iv) port or airport of loading (including the port of transhipment, if applicable);
 - (v) port or airport of discharge; and
 - (vi) anticipated date of shipment.
- (f) For each shipment, the seller shall receive from the PSI Company original copy of his final invoice duly attested by means of affixing security label with relevant import reference and date of such attestation and confirming that the goods described in the invoice have been inspected;
- (g) The seller shall use the attested invoice to negotiate instruments of payment and the same shall be forwarded by his bank to the importer's bank in Pakistan.
- (h) No payment shall be made to the seller unless the original attested invoice in respect of the goods is presented to the importer's bank alongwith the other shipping documents required for negotiation of payment.
- (i) The seller is warned that the PSI Company intervention is not intended to protect the contractual obligations of the parties

to the transaction and, therefore, does not affect the rights of the buyer, for whom the PSI Company is not acting and does not relieve the seller of his contractual obligations.

- (2) Every importer shall submit to the local liaison office of relevant PSI Company in accordance with the geographical areas of responsibility as defined in Annex III to these Rules, an Inspection Order in duplicate, complete in all respect alongwith attested copies of the documents specified therein including a copy of notification under which any exemption or concession is being claimed: Provided that—
 - (a) the Inspection Order will be accepted by the PSI Company only if it is complete in all respect.
 - (b) The importer may request the PSI Company for an amendment in Inspection Order at any time before the date of inspection by the PSI Company.
 - (c) The Inspection Order served on the PSI Company will be treated as an intended declaration before the Customs that may lead to action under the relevant laws for incorrect declaration or information that may be detected by the PSI Company in the country of export or by the Customs on arrival of goods in Pakistan.
- (3) The overseas importers of goods for which no letter of credit is required, may serve the Inspection Order on the relevant local office of the PSI Company in the country of export. The address of concerned local office can be obtained from the Pakistan Embassy abroad or from the Central Board of Revenue, Islamabad, or from the following places:—

Cotecna Inspection S.A., 58, rue de la Terrassiere, P.O. Box No. 6155, CH-1211, Geneva-6. Switzerland. Fax No. 41 22—849-69-39

Societe Generala de Surviellance, S.A. (SGS) 1 place des Alpes, P.O. Box 2152, CH-1211, Geneva, Switzerland. Fax No. (4) In exceptional cases, where goods are imported without pre-shipment inspection or these are required to be re-examined for any particular reason determined by the Customs, an inspection shall be undertaken jointly by Customs and the PSI Company on the request of Customs in the port of entry:

Provided that in all such cases the importer shall bear the cost of inspection and the goods may be assessed on the basis of CRF to be issued by the PSI Company as per joint inspection report.

- (5) The importer shall, on receipt of documents from the authorized dealer, bank or exporter, inform the concerned PSI Company about the date of arrival of the goods and issue of CRF. He shall thereafter file the bill of entry promptly in accordance with the provisions of section 79 of the Act at the specified Customs House or Customs Station enclosing therewith the original copy of CRF besides copies of other required documents. In case, the PSI Company fails to issue the CRF even after satisfactory inspection, the importer may obtain CRF from the PSI Company's liaison office by presenting the copy of settlement invoice with security label and bill of lading or file the bill of entry for clearance of goods for home consumption or for warehousing under section 79 of the Act, on the basis of a certificate issued by the PSI Company that the CRF is temporarily held up and will be issued within specified period.
- (6) In case of dispute with reference to the services performed by the PSI Company, enhancement of value, change of classification, refusal to allow benefit under any notification, or for any other reason, the importer may take up the matter directly with the PSI Company liaison office in Karachi or Lahore. If the dispute is not resolved within seventy two hours, the importer may file a presentation for resolution of dispute by the working committee, headed by a Deputy Collector of Customs, and comprising of representatives of PSI Company Pakistan Customs and any other person nominated by the Central Board of Revenue or the Government.
- (7) For ex-bonding of goods, the importers will submit a request alongwith copy of CRF, already received for in-bonding of goods, to the PSI Company for issuance of a fresh CRF for the quantity intended to be ex-bonded. The PSI Company will accordingly issue a fresh CRF after joint re-inspection of the goods alongwith Customs, if

> The importer will then file an ex-bond bill of ent supported by the CRF issued by the PSI Company and other documents as per normal procedure. The Customs will allow the release of goods from the warehouse on payment of duties and taxes including surcharges if any on satisfaction that the provisions of the Act have been duly complied with.

- The issuance of CRF by the PSI Company shall not absolve the importer from his legal responsibilities under the laws of Pakistan. The imported goods shall be assessed as per notified values under section 25B of the Act. if the same are higher than the value indicated in the CRF. The case may be adjudicated by the competent authority if it is found that declaration made in the bill of entry or documents enclosed therewith are false in material particular or PSI Company had reported detection of incorrect price, classification or claim under any notification or any other discrepancy punishable under the Act.
- 5. Licensing Authority's Responsibility.—Where an application to import is made for issuance of an import licence, permit, Appendix B, order or import authorization in any form, the competent authority shall endorse on such import licence, permit, Appendix B, order or import authorization that import of goods shall be subject to pre-shipment inspection and valuation and return the additional copy to the importer for submission to PSI Company to form of Inspection Order.
- 6. Authorized Dealer's Responsibility.—Every letter of credit with Appendix B issued for the import of goods shall specify that the goods are subject to pre-shipment inspection by the PSI Company and the beneficiary's bank shall not make the payment to the seller unless the original final invoice issued by the seller is attested by the PSI Company confirming that such inspection and service has been completed satisfactorily.
- 7. PSI Company's Responsibility.—The PSI Company shall perform the following functions:-
 - It shall ensure that the Inspection Order when received from the importer in duplicate is complete in all respect and shall issue a receipt showing the sequential number of the relevant PSI Company. The Inspection Order found incomplete shall be promptly returned to the importer or his authorized agent for correction and re-submission thereof.
 - A copy of the complete Inspection Order shall be transmitted on priority basis to the PSI Company offices in the country of supply for rendering

the requisite services. The PSI Company shall also provide details of Inspection Order alongwith its sequential number to relevant Custom House or Station in agreed form and manner.

- (3) The PSI Company's office, its affiliates or authorized agents in the country for export shall immediately send a request to the exporter for supply of necessary information alongwith requisite technical data, and documents, literature for inspection and price comparison.
- (4) The inspection of goods, on the date indicated by the seller, shall be undertaken as per satisfaction of the PSI Company for determination of the type and nature as well as quality specification (wherever applicable), quantity, origin, classification, and dutiable value at all points of supply or in the ports of shipment and other points of despatch outside the territory of the Islamic Republic of Pakistan. The PSI Company may draw samples of goods where permitted and commercially appropriate for detailed tests, including laboratory analyses and shall witness the stuffing of full container loads (FCL) and apply unique and tamper-proof seal to FCL.
- undertake a price comparison of the goods, the PSI Company, shall undertake a price comparison of the goods in the country of export or origin to verify whether the price elements of the total amount invoiced by the foreign suppliers (such term to include seller, exporters and shippers) correspond within reasonable limits with the export price levels generally prevailing in the country of supply or origin, or where applicable, the world market at the time of examination of the goods. The price comparison shall not be limited to the price of the goods but shall cover the total contracted value, freight, insurance, commission and all related services.

(6) In cases where —

- (a) the inspection by the PSI Company reveals satisfactory result, the seller may be asked to submit the final invoice which shall be returned to the seller after affixing a security lable and making appropriate entries.
- (b) a physical inspection reveals discrepancies, the PSI Company shall advise the seller of such discrepancies and shall issue a CRF on rectification of such discrepancies to its satisfaction. The PSI Company may withhold the issue of CRF in case where the seller does not correct discrepancies and may notify the concerned parties of all the detailes or uncorrected discrepancies by issuing a Discrepancy Report.

- (7) In case the price comparison reveals that the prevailing export price in the country of supply is in excess of the invoice price declared by the seller, the PSI Company shall issue a CRF report indicating value in accordance with the prevailing export market price and in accordance with the prevailing laws of Pakistan.
- (8) The PSI's Company's offices in the country of export shall transmit the CRF or Discrepancy Report to the PSI Company liaison offices in Karachi or Lahore whose addresses will be published alongwith fax, telephone and telex numbers by the PSI Company. The liaison office shall in-turn issue CRF' indicating all the details of the goods and the duties and other taxes payable by the importer, with a copy to the Customs.
- 8. Custom's Respnsibilities.—(1) Nothing contained hereinbefore shall exclude the Customs from performance of its functions under the Act and the rules made thereunder in respect of all goods specified in Annex I to these rules.
- (2) The Simplified procedure as described below shall be followed in respect of goods for which the PSI Company has issued a CRF:—
 - (a) The Customs at each Custom House or Station shall accept the bill of entry in respect of goods subject to pre-shipment inspection only if it is accompanied with the original CRF issued by the PSI Company alongwith other requisite documents for registration under section 79 of the Act:

Provided that a bill of entry accompanied by a telefax copy of CRF may be accepted provisionally for internal processing by Customs at stations other than Karachi and Lahore and in such cases clearance of goods shall be allowed only on receipt of original CRF.

- (b) The Customs shall verify the corrections of the bill of entry in all respects and ensure that the particulars of the bill of entry are in complete harmony with the supporting documents.
- (c) In case the Customs is satisfied that the bill of entry is complete and the customs duties and other taxes have been worked out in accordance with the CRF issued by the PSI Company, the bill of entry shall be allocated the registration number with date and marked

"Allowed Payment" and returned to the designated authorized agent of the importer under second appraisement system:

Provided that where the value of such goods determined under section 25 B of the Act is higher than the value of goods specified in CRF, the duty shall be levied at such higher value. In case, the Customs is of the view that the entries made in the CRF or in the bill of entry are not correct, the bill of entry shall be referred to the designated committee for resolution of the disputes if not agreed by the importer and the disputed bill of entry shall be processed under the first appraisement system specified in section 80 of the Act.

(d) The Customs shall refer the matter of valuation to the PSI Company in case Customs has reasonable belief that the value prevailing on the date of filing of bill of entry is higher than the value reported in the CRF and may allow the release of the imported goods either for home consumption or for warehousing after making provisional assessment of the value of the goods according to the provisions of section 81 of the Act:

Provided that this provisional assessment shall be finalized on the receipt of the revised valuation advice from the PSI Company:

Provided further that the Customs may assess the goods at higher value in case of a substantial evidence to the effect that the actual normal price is higher, ignoring the lower value reported by the PSI Company in the CRF.

- (e) The bill of entry shall be returned to the importer or his authorized agent after completion of assessment for payment of customs duties and taxes at authorized branch of the National Bank of Pakistan.
- (f) The importer or his authorized agent shall submit the relevant copies of the bill of entry showing payment of the customs duties and other taxes in the designated branch of the National Bank of Pakistan alongwith CRF and other requisite documents to the concerned Assistant Collector of Customs.
- (g) The concerned Assistant Collector shall examine the consignment on selective basis and shall allow release of the goods on his satisfaction and after recording his inspection report that the goods examined by him correspond to description, quality and quantities specified in CRF.
- . (h), in case the seals have not been applied to the full container load by

 the PSI Company or the seals are found to be interpolated, the goods

shall be re-examined in detail and clearance be allowed if no discrepancies are found.

- (i) The concerned Assistant Collector shall retain a copy of the bill of entry showing the payment of duty and taxes alongwith other relevant documents and CRF which shall be forwarded to the relevan appraisement group for post-clearance check and audit.
- (j) In case where the seal is found broken, interpolated or the goods are found different in material, quality or quantity than those specified in CRF issued by the PSI Company, the goods may be re-examined in the presence of authorized representative of the PSI Company and the authorized agent of the importer at the expense of the importer.
- (k) The Customs alongwith a representative of PSI Company shall reinspect the goods in the following circumstances at the expense of the importer, namely:—
 - (i) Where an importer applies for extension in the warehousing period beyond the permitted time and the Customs intends to verify the condition of the goods before allowing such extension; or
 - (ii) where the importer requests for re-assessment of goods due to damage or deterioration in accordance with the provisions of the Act; or
 - (iii) where the importer claims re-assessment or revaluation of the goods at the time of ex-bonding because of change in their normal value.
 - (1) The Customs at Karachi shall allow transhipment of the imported goods only to the port or Customs station designated in the CRF issued by the PSI Company and the carrier of goods to the designated port or as the case may be customs station shall use the transhipment permit issued by the customs and CRF issued by the PSI Company for transhipment of the goods from Karachi to the designated port or Customs station.
- 9. Duties and taxes, etc. to be payable at the prevalent rates.—Notwith-standing anything contained hereinbefore or the assessment of taxes and duties specified in CRF, the importer shall be liable to pay the duties, taxes and other charges on the goods imported by him at the rates applicable on the date of presentation of the bill of entry under the Act.

ARTICLE 1 SCOPE OF THE CONVENTION

- 1. The following wastes that are subject to transboundary movement shall be 'hazardous wastes' for the purposes of this Convention:
 - a) Wastes that belong to any category contained in Annexunless they do not possess any of the characteristics contained in Annex-III; and
 - b) Wastes that are not covered under paragraph (a) but are defined as, or are considered to be, hazardous wastes by the domestic legislation of the Party of export, import or transit.
- 2. Wastes that belong to any category contained in Annex-II that are subject to transboundary movement shall be "other waste" for the purpose of this Convention.
- 3. Wastes which, as a result of radioactive, are subject to other international control systems, including international instruments, applying specifically to radioactive materials, are excluded from the scope of this Convention.
- 4. Wastes which derive from the normal operations of a ship, the discharge of which is covered by another international instrument, are excluded from the scope of this Convention.

ARTICLE 2

For the purposes of this Convention:

- (a) "Wastes" are substances or objects which are disposed of or are intended to be disposed of or are required to be disposed of by the provisions of national law.
- (b) "Management" means the collection, transport and disposal of hazardous wastes or other wastes, including after-care of disposal sites;

CATEGORIES OF WASTES TO BE CONTROLLED

Waste Streams:

1.

- V1 Clinical wastes from medical care in hospitals, medical centres and clinics.
- Wastes from the production and preparation of pharmaceutical products.
- Y3 Waste pharmaceuticals, drugs and medicines.
- Wastes from the production, formulation and use of biocides and phytopharmaceuticals.
- Wastes from the manufacture, formulation and use of wood preserving chemicals.
- Y6 Wastes from the production, formulation and use of organic solvents.
- Wastes from heat treatment and tempering operations containing cyanides.
- Waste mineral oils unfit for their originally intended use.
- waste oils/water, hydrocarbons/water mixtures, emulsions.
- Waste substances and articles containing or contaminated with polychlorinated iphenyls (PCBs) and/or polychlorinated terphenyls (PCTs) and/or polyborominated biphenyls (PBBs).
- Y11 Waste tarry residues arising from refining, distillation and any pyrolytic treatment.
- Wastes from production, formulation and use of lnks, dyes, pigments, paints, lacquers, varnish.
- Y13 Wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives.
- Waste chemical substances arising from research and development or teaching activities which are not identified and whose effects on man and/or the environment are not known.
- Y15 Waste of an explosive nature not subject to other legislation.

Y42

THE GAZETTE OF PAKISTAN, EXTRA., JULY 4, 1995 [PART II

- **Y16** Wastes from production, formulation and use of photographic chemicals and processing materials.
- Y17 Wastes resulting from surface treatment of metals and plastic.

ANNEX-III.

LIST OF HAZARDOUS CHARACTERISTICS

| UN Class* | Code | Characteristics | |
|-----------|------|---|--|
| a 7a 1 | H1 | Explosive | |
| | | An explosive substance or waste is a solid or liquid substance or waste (or mixture of substances or wastes) which is in itself capable by chemical reaction of producing gas at such a temperature and pressure and such a speed as to cause damage to the surroundings. | |
| Delite - | | | |

3 H3 Flammable liquids.

The word "flammable" has the same meaning as "inflammable". Flammable liquids are liquids, or mixtures of liquids, or liquids containing solids in solution or suspension (for example, paints, varnishes, lacquers, etc., but not including substances or wastes otherwise classified on account of their dangerous characteristics) which give off a flammable vapour at temperatures of not more than 60.5 degree C, closed-cup test, or not more than 6.56 degree C, open-cup tests. (Since the results of open-cup tests and of closed cup tests are not strictly comparable and even individual results by the same test are often variable, regulations

THE GAZETTE OF PAKISTAN, EXTRA., JULY 4, 1995 [PART II-1362 varying from the above figures to make allowance for such differences would be within the spirit of this definition.) Flammable solids H4.1 4.1 Solids, or waste solids, other than those classed as explosives, which under conditions encountered in transport are readily combustible, or may cause or contribute to fire through friction. Substances or wastes liable to spontaneous combustion. 4.2 H4.2 Substances or wastes which are liable to spontaneous heating under normal conditions encountered in transport, or to heating up on contact with air, and being then liable to catch fire. Substances or wastes which, in contact with water emit 4.3 H4.3 flammable gases. Substances or wastes which, by Interaction with water, are liable to become spontaneously flammable or to give off flammable gases in, dangerous quantities. Oxidizing. 5.1 H5.1 Substances or wastes which, while in themselves not necessarily combustible, may generally by yielding oxygen cause, or contribute to, the combustion of other materials. Organic Peroxides. 5.2 H5.2 Organic substances or wastes which contain the bivalento-o-structure are thermally unstable substances which self-accelerating exothermic undergo may decomposition. Poisonous (Acute). H6.1 6.1 Substances or wastes liable either to cause death or serious injury or to harm human health if swallowed or inhaled or by skin contact. Infectious substances. H6.2 6.2 Substances or wastes containing viable micro organisms or their toxins which are known or suspected to cause disease in animals or humans.

Corrosives.

H8

8

Substances or wastes which, by chemical action, will cause severe damage when in contact with living tissue, or, in the case of leakage, will materially damage, or even destroy, other goods or the means of transport; they may also cause other hazards.

- g H10 Liberation of toxic gases in contact with air or water Substances or wastes which, by interaction with air or water, are liable to give off toxic gases in dangerous quantities.
- 9 H11 Toxic (Delayed or chronic).

 Substances or wastes which, if they are inhaled or ingrested or if they penerate the skin, may involve delayed or chronic effects, including carcinogenicity.
- 9 H12 Ecotoxic.

 Substances or wastes which, if released present or may present immediate or delayed adverse impacts to the environment by means of bio-accumulation and/or toxic effects upon biotic systems.
- 9 H13 Capable, by any means, after disposal, of yielding another material, e.g., leachate, which possesses nay of the characteoristics listed above.
- Corresponds to the hazard classification system included in the United Nations Recommendations on the Transport of Dangerous Goods (ST/SG/AC. 10/1/Rev,5, United Nations, New York, 1988).
