1. This chapter does not cover:
 - (a) clock or watch glasses or weights (classified according to their constituent material);
 - (b) watch chains (heading 7113 or 7117, as the case may be);
 - (c) parts of general use defined in note 2 to Section XV, of base metal (Section XV), or similar goods of plastics (Chapter 39) or of precious metal or metal clad with precious metal (generally heading 7115); clock or watch springs are, however, to be classified as clock or watch parts (heading 9114);
 - (d) bearing balls (heading 7326 or 8482, as the case may be);
 - (e) articles of heading 8412 constructed to work without an escapement;
 - (f) ball bearings (heading 8482); or
 - (g) articles of Chapter 85, not yet assembled together or with other components into watch or clock movements or into articles suitable for use solely or principally as parts of such movements (Chapter 85).
2. Heading 9101 covers only watches with case wholly of precious metal or of metal clad with precious metal, or of the same materials combined with natural or cultured pearls, or precious or semi-precious stones (natural, synthetic or reconstructed) of headings 7101 to 7104. Watches with case of base metal inlaid with precious metal fall in heading 9102.
3. For the purposes of this chapter, the expression ‘watch movements’ means devices regulated by a balance-wheel and hairspring, quartz crystal or any other system capable of determining intervals of time, with a display or a system to which a mechanical display can be incorporated. Such watch movements shall not exceed 12 mm in thickness and 50 mm in width, length or diameter.
4. Except as provided in note 1, movements and other parts suitable for use both in clocks or watches and in other articles (for example, precision instruments) are to be classified in this chapter.

 - (w) tableware, kitchenware, toilet articles, carpets and other textile floor coverings, apparel, bed linen, table linen, toilet linen, kitchen linen and similar articles having a utilitarian function (classified according to their constituent material).
2. This chapter includes articles in which natural or cultured pearls, precious or semi-precious stones (natural, synthetic or reconstructed), precious metal or metal clad with precious metal constitute only minor constituents.
 3. Subject to note 1 above, parts and accessories which are suitable for use solely or principally with articles of this chapter are to be classified with those articles.
 4. Subject to the provisions of note 1 above, heading 9503 applies, *inter alia*, to articles of this heading combined with one or more items, which cannot be considered as sets under the terms of General Interpretative Rule 3(b), and which, if presented separately, would be classified in other headings, provided the articles are put up together for retail sale and the combinations have the essential character of toys.
 5. Heading 9503 does not cover articles which, on account of their design, shape or constituent material, are identifiable as intended exclusively for animals, for example, 'pet toys' (classification in their own appropriate heading).

Subheading note

1. Subheading 9504 50 covers:
 - (a) video game consoles from which the image is reproduced on a television receiver, a monitor or other external screen or surface; or
 - (b) video game machines having a self-contained video screen, whether or not portable.

This subheading does not cover video game consoles or machines operated by coins, banknotes, bank cards, tokens or by any other means of payment (subheading 9504 30).

Additional note

1. *Subheading 9505 10 covers:*
 - (a) *articles that are broadly recognised as traditionally used at Christmas festivities and exclusively manufactured and designed as articles for Christmas festivities.*

▼ **M216**

These are:

- (1) articles associated with the nativity (i.e. articles for the traditional Christmas crib), such as nativity figures, nativity animals, Bethlehem stars, the three nativity kings, and nativity scenes;
- (2) articles recognized as being used at Christmas festivities due to long standing national traditions, such as:
 - artificial Christmas trees,
 - Christmas stockings,
 - imitation yule logs,
 - Christmas crackers,
 - Father Christmases with or without a sledge,
 - Christmas angels.

The subheading does not cover articles of the winter season which are suitable for a more general use as decorations during that season, because their objective characteristics suggest that they are not exclusively used for Christmas festivities but mainly as decorations during the winter season, such as icicles, snow-crystals, stars, reindeers, robins, snowmen, and other images of the winter season, whether or not the colours or outfits etc. suggest a connection with Christmas.

(b) decorative articles for Christmas trees.

These are articles designed to be hung on a Christmas tree (i.e. light-weight articles of generally non-durable material designed to decorate a Christmas tree). The articles must have a connection with Christmas.

▼ **M216***SECTION XXI***WORKS OF ART, COLLECTORS' PIECES AND ANTIQUES***CHAPTER 97***WORKS OF ART, COLLECTORS' PIECES AND ANTIQUES****Notes**

1. This chapter does not cover:
 - (a) unused postage or revenue stamps, postal stationery (stamped paper) or the like, of heading 4907;
 - (b) theatrical scenery, studio backcloths or the like, of painted canvas (heading 5907) except if they may be classified in heading 9706; or
 - (c) pearls, natural or cultured, or precious or semi-precious stones (headings 7101 to 7103).
2. For the purposes of heading 9702, the expression 'original engravings, prints and lithographs' means impressions produced directly, in black and white or in colour, of one or of several plates wholly executed by hand by the artist, irrespective of the process or of the material employed by him, but not including any mechanical or photomechanical process.
3. Heading 9703 does not apply to mass-produced reproductions or works of conventional craftsmanship of a commercial character, even if these articles are designed or created by artists.
4. (A) Subject to notes 1 to 3 above, articles of this chapter are to be classified in this chapter and not in any other chapter of the nomenclature.

(B) Heading 9706 does not apply to articles of the preceding headings of this chapter.
5. Frames around paintings, drawings, pastels, collages or similar decorative plaques, engravings, prints or lithographs are to be classified with those articles, provided they are of a kind and of a value normal to those articles.

Frames which are not of a kind or of a value normal to the articles referred to in this note are to be classified separately.

Additional note

1. *Heading 9705 includes collectors' motor vehicles and aircraft of historical or ethnographic interest which are:*
 - (a) *in their original state, without substantial changes to the chassis, body, steering, braking, transmission or suspension system, engine, wings etc. Repairing and restoring is allowed, and broken or worn-out parts, accessories and units can have been replaced, provided that the vehicle is preserved and maintained in the historically correct condition. Modernised or modified motor vehicles and aircraft are excluded;*
 - (b) *in case of motor vehicles at least thirty years old, in case of aircraft at least fifty years old;*
 - (c) *of a model or type which is no longer in production.*

▼ **M216**

The requisite characteristics for inclusion in a collection — being relatively rare, not being normally used for its original purpose, being the subject of special transactions outside of the normal trade in similar utility articles, and being of greater value — are presumed to be fulfilled for motor vehicles and aircraft which comply with the above three criteria.

This heading also includes, as collectors' items:

- *motor vehicles and aircraft, irrespective of their date of manufacture, which can be proved to have been used in the course of an historic event,*
- *motor racing vehicles and racing aircraft which can be proved to have been designed, built and used solely for competition and which have achieved significant sporting success at prestigious national or international events.*

Parts and accessories for motor vehicles and aircraft are classified in this heading, provided that they are original parts or accessories, that they are at least thirty years old (for motor vehicles) or at least fifty years old (for aircraft), and that they are no longer in production.

Replicas and reproductions are excluded, unless they fulfil the above three criteria.

SECTION I

AGRICULTURAL ANNEXES

▼ M216

ANNEX I

**AGRICULTURAL COMPONENTS (EA), ADDITIONAL DUTIES FOR
SUGAR (AD S/Z) AND ADDITIONAL DUTIES FOR FLOUR (AD F/M)**

▼M216*Annex 1*

Where reference is made to this Annex, the agricultural component (EA) as well as, where appropriate, the additional duty on sugar (AD S/Z) or the additional duty on flour (AD F/M), is to be determined on the basis of the content of:

- milkfat,
- milk protein,
- sucrose/invert sugar/isoglucose,
- starch/glucose on the product concerned.

A corresponding additional code for these goods can be obtained from Table 1, below.

When calculating the sucrose/invert sugar/isoglucose content for the determination of the correct agricultural component within the concerned subheadings in cases where no sucrose or glucose is declared and/or found to be present, the amount to be included in the calculation set out in footnote ⁽³⁾ to Table 1 shall be the amount of fructose expressed as sucrose.

The agricultural component (in euro per 100 kilograms net) to be applied to the goods is set out in column 2 of Table 2. The additional duty on sugar ('AD S/Z') (in euro per 100 kilograms net) given in column 3 of Table 2 shall not apply in full, unless the tariff schedule makes reference to Annex 1 by means of the symbol 'AD S/Z'; the additional duty on flour ('AD F/M') (in euro per 100 kilograms net), set out in column 4, shall not apply in full, unless the tariff schedule makes reference to Annex 1 by means of the symbol 'AD F/M'.

⁽¹⁾ *Milk proteins*

Caseins and/or caseinates forming part of goods shall not be regarded as milk proteins if the goods do not have any other constituent of lactic origin. Milkfat contained in the goods at less than 1 %, and lactose at less than 1 %, by weight, are not considered as other constituents of lactic origin. When customs formalities are completed, the person concerned must include in the appropriate declaration: 'only milk ingredient: casein/caseinate', if such is the case.

⁽²⁾ *Starch/glucose*

The content of the goods (as presented) in starch, its degradation products, i.e. all the polymers of glucose, and the glucose, determined as glucose and expressed as starch (on a dry matter basis, 100 % purity; factor for conversion of glucose to starch: 0,9). However, where a mixture of glucose and fructose is declared (in whatever form) and/or is found to be present in the goods, the amount of glucose to be included in the above calculation is that which is in excess of the fructose content of the goods.

⁽³⁾ *Sucrose/invert sugar/isoglucose*

The content of the goods (as presented), in sucrose, together with the sucrose which results from expressing as sucrose any mixture of glucose and fructose (the arithmetical sum of the amounts of these two sugars multiplied by 0,95), which is declared (in whatever form) and/or found to be present in the goods. However, where the fructose content of the goods is less than the glucose content, the amount of glucose to be included in the above calculation shall be an amount equal, by weight, to that of fructose.

Note:

In all cases, where a hydrolysis product of lactose is declared, and/or galactose is found to be present among the sugars, then the amount of glucose equal to that of galactose is deducted from the total glucose content before any other calculations are carried out.
